GREAVES GP-2000

BRUSHLESS PORTABLE PETROL GENERATORS

SPECIAL FEATURES

EASY START

The Genset has a recoil starter and Superior inbuilt decompression feature which permit quick, smooth start at anytime, any condition and everytime. Special electronic TI ignition produces stronger and uniform sparks under all operating conditions.

COMPACT AND LIGHTWEIGHT

The combination of a brushless alternator and Greaves Petrol/Kerosene engine makes the Genset very compact in size and light in weight.

FUEL EFFICIENT AND HIGH PRODUCTIVITY

- Low oil consumption for longer running between scheduled maintenance.
- A large fuel tank and low fuel consumption for less frequent refuelling.
- A fuel gauge integral with tank to monitor fuel level without having to remove the fuel cap.

QUIET OPERATION

Lower noise level means a more comfortable and productive environment, which is why Greaves has specially designed the Genset to limit noise output including a large volume muffler with a specially baffled chamber and modulated flywheel fan that ensures excellent cooling while minimizing noise.

BRUSHLESS ALTERNATOR

The brushless alternator with a condenser-type voltage regulator ensures stable voltage output and requires no maintenance.

MINIATURE CIRCUIT BREAKER (MCB)

A sensitive Electro magnetic type circuit breaker (MCB) ensures protection against damage to the appliances and Genset in case of over loading or shortcircuit and automatically trips the electrical system protecting not only the Genset and appliances but provides safety of the operator.

OIL ALERT SYSTEM

In case the Lub oil drops below a specified level, the oil alert system automatically stops the engine thus preventing engine seizure.

SPARES AND SERVICE

Spare parts are easily available. The Genset is backed by the efficient Greaves after-sales service at its branches and a dealer network spread all over the country.

GP-2000 TECHNICAL SPECIFICATION

PARAMETERS	
ALTERNATOR	
TYPE	BRUSHLESS, SELF EXCITING 2 POLE, SINGLE PHASE, UPF
AC VOLTAGE/FREQUENCY	220 V/ 50 Hz
MAXIMUM OUTPUT	1800 VA
RATED OUTPUT	1600 VA
RATED CURRENT	7.3 A
DC OUTPUT	12V-8.3 A
ENGINE	
MODEL/TYPE	GREAVES MK 20 HSP 4 STROKE, AIR COOLED, PETROL RUN
DISPLACEMENT	192 cc
IGNITION SYSTEM	ELECTRONIC
FUEL TANK CAPACITY	PETROL 10.0 LITRES
SUMP CAPACITY	0.7 LITRE
GENERATOR	
WEIGHT - Kgs	43
DIMENSIONS in mm (L x B x H)	550 X 380 X 490
SPECIAL FEATURES	
OIL ALERT SYSTEM	YES
RECOIL STARTER	YES
CIRCUIT BREAKER	YES
D.C. OUTPUT	YES

*In view of continuous improvement,
specifications are subject to change without notice.*
